Preface

India has traditionally been rich in literature. Since India's Independence in 1947, there has been a concomitant growth of education, research and publishing in the country. With the consistent growth in literacy, opening of more and more educational institutions as well as printing units, and the opening of distribution channels on a large scale, where UBSPD played a key role, publishing industry in India has further developed. A number of British and American books have been reprinted in India as low-priced editions, some more have been adapted to meet the national, cultural and educational requirements of students in India. Still, some of the books have been translated from various languages into English. More than 9000 colleges, 233 universities and numerous research units all over the country bring out, from time to time, research publications in one field or the other. All these publications are brought out by commercial, institutional and author-publishers in India. More than 7500 publishers in India publish books in the English language alone.

This surfeit of publications from numerous sources has made it very difficult for scholars, librarians, book distribution organisations within and outside the country to have an access to the titles. To overcome this difficulty, UBSPD has attempted to present the information in its annual *Indian Books in Print*.

UBSPD has been in book distribution business since 1936. It expanded its operations from New Delhi in 1963. Thus, it has been a perennial source of marketing for publishers all over the country. Publishers — both big and small — have always relied on UBSPD's organisational skill, network of offices and dedicated team of field staff, assisted with a network of computers, to market their publications within and outside the country. As an authorised supplier of books to the U.S Library of Congress, UBSPD's consistent endeavours have metamorphosed into a vast data which is continuously updated. All this has made UBSPD's data a reliable and latest source of information.

UBSPD's *Indian Books in Print*, in the first instance, presents information about 45,000 titles, which will grow tremendously in the years to come. To make it a useful reference tool for research scholars, librarians and book distribution organisations, including exporters and importers of Indian books, it offers the entire data in three different categories. Volume I presents it in Title sequence, Volume II in Author sequence, and in Volume III we have listed these titles under broad subject heads. Volume III also contains a list of all such publishers with their addresses.

This will be an annual feature and UBSPD is poised to make further improvements by presenting new information and incorporating changes in the existing data.

Information in these volumes is being compiled and supervised, on a day-to-day basis, by UBSPD's team consisting of Mr. Sukumar Das, Ms. Nupur Chawla, Mr. Abhay Nagar, Mr. Kuldip Sharma, Mr. Ravindra Sharma, Mr. Vivek Ahuja, Mr. Amrit Sharma, Mr. M.K. Kalsi, Mr. M.L. Ahuja, Mr. B.C. Saha, Mr. P.N. Kala, Mr. K.C. Malhotra, Mr. Rakesh Kumar and Mr. Rajan Nangia. The information has been classified by Mr. M.S. Sharma, who is a retired Librarian-cum-Administrator of ISBN Agency in the Ministry of Human Resources, New Delhi.
